Private & Secure

SOC 2 Type 2, GDPR, and data encryption

Data Normalization

Data models, flat data tables, and account mapping included

Customizable

Add your firm's branding to the standard output

Results

"Strongbox is great!

I found it easy to use, as did the target company management team. It produced a very well-organized deliverable almost instantaneously.

Strongbox **saved our team 15 hours** and the annoying back and forth with the target to get the right data."

TAS Senior Manager at a Big 4
